

Our Water

The resource most associated with the Saint Croix Valley needs a fresh perspective.

Surface water and aquifers are governed by no less than 13 different agencies and multiple non-profits vie for our awareness in their pursuits to protect these assets. Yet, our ability to digest the complexities seem nearly insurmountable.

This engagement will center on the generations who will inherit these complexities, and foster ideas on improving everyone's ability to understand the situation as it is.

Quarterly Connection

Fall, 2024

thisisstillwatermn.org

PURPOSE: Initiate quarterly gatherings between youth and their community...starting with:

Seeing 'what is'...for what it is.

INTENT:

- Reciprocal engagement across generations
- Transcend geographic boundaries
- Direct influence by youth on community-matters based on reality, critical thought, study, and problem-solving.
- Provide youth an alternative venue to gather actionable insights from others and share progress on their efforts.

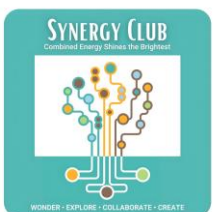

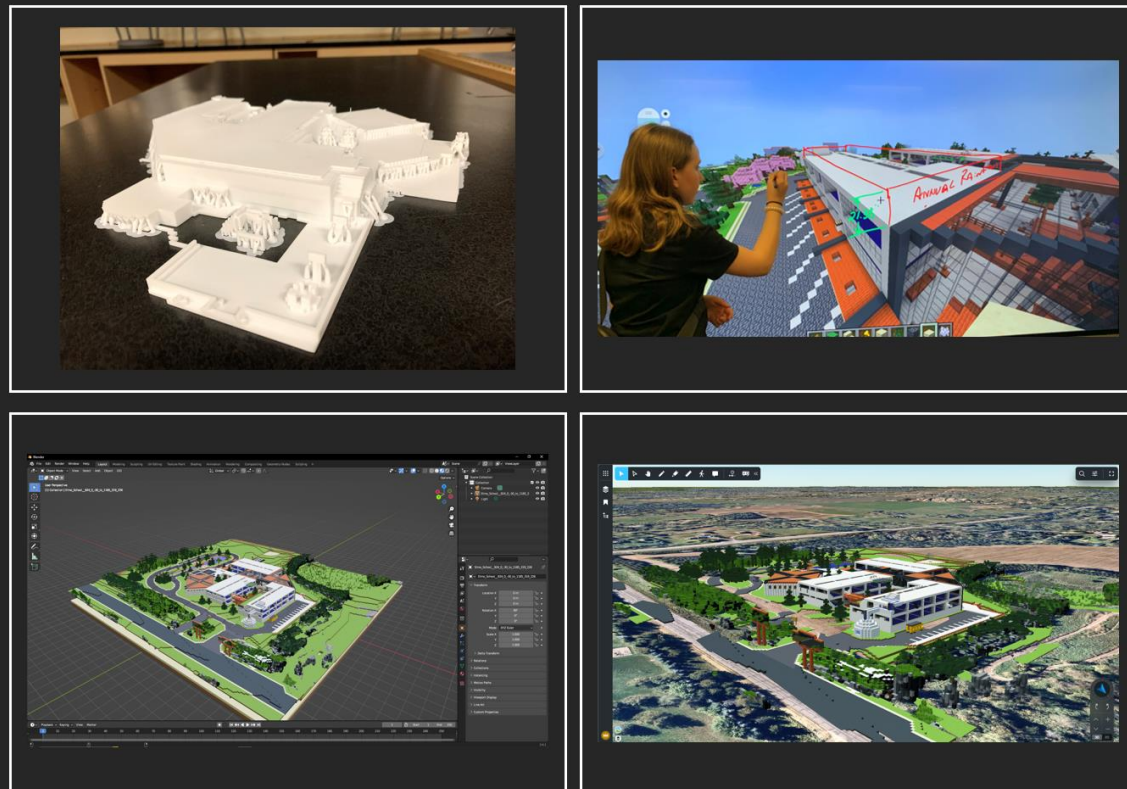

WHEN • WHERE

September 28, 2024
 1:00 PM – 4:30 PM
 Stillwater Middle School
 523 W. Marsh Street

Youth Initiatives

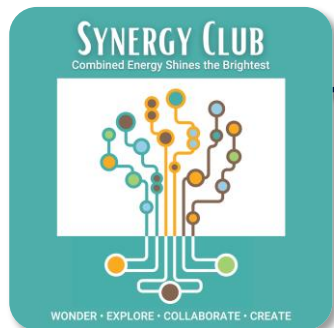

Students will reconvene to continue with projects that leverage technologies as an integral part of developing empathetic and impactful mindsets...centered on real Saint Croix Valley matters.

INTENT: Foster rich conversations and see where student methods might inspire actionable ideas around **Water**.
